Control System

Whole-home
air quality
solution

An easy, efficient way to freshen the air in your home.

A “breath of fresh air” doesn’t have to be just a nice expression. It’s something you can experience every day with the Healthy Climate® Ventilation Control System. This innovative solution provides proper ventilation – one of the most effective ways to improve the air quality inside your home. Compatible with any forced-air system, the Ventilation Control System connects to an outside wall to allow the right amount of fresh air to enter your home. The result is improved comfort, air quality and efficiency – in a word, refreshing.

A balanced indoor climate you don’t even have to think about

The system’s electronic controller monitors outdoor temperatures and indoor humidity levels, automatically adjusting fresh air as needed to ensure the proper balance inside your home. A timer manages the quantity of air entering your home for improved efficiency and lower energy costs.

Greater flexibility and peace of mind

Easy-to-use controls allow you to manage the amount of fresh air inside your home based on your individual preferences, giving you increased comfort and control. And since the Ventilation Control System comes with a 2-year limited warranty*, you’re ensured fresh, cleaner** indoor air for years to come.

Healthy Climate® Ventilation Control System

Features	How it works	How it helps
Motorized Damper (connects to outside wall)	Works like a valve, automatically allowing or shutting off fresh air as needed.	Helps keep the air inside your home fresh, cleaner and comfortable.**
24-Hour Timer	Manages the quantity of air entering your home, providing ventilation only when you need it.	Helps control energy costs.
Electronic Controller	Helps manage indoor air quality by responding to outdoor temperatures and indoor humidity levels.	Balances temperature and humidity for improved indoor comfort and air quality.
User Controls	Allows you to manage air exchange and circulation based on your individual needs.	Offers greater flexibility and comfort.

*Applies to residential applications only. See actual warranty certificate for details.
 **Depending on the outside air quality.
